

The Bipartisan Infrastructure Law (Infrastructure Investment and Jobs Act).

I would encourage everyone to note FHWA's website on the law, available at <https://www.fhwa.dot.gov/bipartisan-infrastructure-law/>, where we have a summary presentation of the provision of the new law, funding information, and other guidance, with more to come.

FHWA has also opened up a Request for Information (RFI) on the BIL/IIJA, asking the public and stakeholders for input on the implementation of the provisions of the law. We would encourage the MPO and its members to review and consider providing feedback. This RFI is available at <https://www.federalregister.gov/documents/2021/12/01/2021-26145/infrastructure-and-investment-jobs-act-request-for-information>.

We'll keep everyone updated as more guidance comes available on the new law and the variety of new programs, and please feel free to reach out if there are any questions.
