Mayor Durrett called the meeting to order and thanked everyone for their attendance. He began by recognizing John Mahre's passing and his dedication to transportation and his involvement on several committees. He asked for continued prayers for John's family. Mayor Durrett said this was his last MPO meeting and said he appreciated the work and the importance of the MPO. Mayor Durrett wanted to recognize Jeff Bryant's two engineering interns: Dexter Digby and Amadeus Gaby. Mayor Durrett then stated the first item on the agenda: the review, discussion and adoption of the minutes from the January 13, 2022 meeting. There were no comments to the minutes. Mayor Pitts made the motion to adopt the minutes and Mr. Britton seconded the motion. The minutes were adopted unanimously.

Item #2 on the agenda was the review, discussion and adoption of Resolution 2022-05 form amendment 1 to the UPWP to add additional KYTC-PL funds for FY2023, revised KYTC PEAs, and BIL information. Mr. Williams said the UPWP needed to be amended to add information on the Bipartisan Infrastructure Law, revise the FHWA/FTA Planning Emphasis Areas, add development of complete street policies to work task IV, and to increase the KYTC PL funds to work task I. Mr. Bing made the motion to adopt Resolution 2022-05 and Mayor Pitts seconded the motion. The Resolution was adopted unanimously.

Item #3 on the agenda was the review, discussion and adoption of Resolution 2022-06 to add Excell Road, from SR-12/Ashland City Road to SR-112/Madison Street, to the functional classification map as a major collector. Mr. Williams said this action would make Excell Road eligible for federal funds and will assist Mr. Bryant with the SR-12 intersection project at Excell Road. Mr. Williams asked Mr. Bryant for an update. He stated that he had been working with TDOT and had met with Paul Degges. Mr. Degges agreed that federal funds would be allowed to be spent on all of the local road improvements needed for the intersection improvement project. Mayor Pitts made the motion to adopt Resolution 2022-06 and Mr. Bing seconded the motion. The Resolution was adopted unanimously.

Item #4 on the agenda was the review, discussion and adoption of Resolution 2022-07 for CTS's updated TAM Plan and targets for FY2023. Mr. Williams stated the TAM Plan addresses the state of good repair for rolling stock, infrastructure, equipment, and facilities; and sets the performance measure targets for FY2023 found on the next page in the tables of attachment A. Mayor Pitts made the motion to adopt Resolution 2022-06 and Mr. Bing seconded the motion. The Resolution was adopted unanimously.

Item #5 on the agenda was the review, discussion and adoption of Resolution 2022-08 for CTS's updated Public Transit Agency Safety Plan. Mr. Williams stated the CTS Safety Plan is intended to improve public transportation safety by guiding transit agencies to more effectively and proactively manage safety risks in their systems. Mayor Pitts made the motion to adopt Resolution 2022-06 and Mr. Bing seconded the motion. The Resolution was adopted unanimously.

Item #6 on the agenda was the review, discussion and adoption of Resolution 2022-09 to amend the FY2020-FY2023 TIP to add TIP project #61 Construction. CTS was awarded the Improve Act in the amount of \$741,108 in total funds. CTS added additional 5339 funds for FY 2023 Mr. Williams stated these funds will be for an open-air bus storage and maintenance facility. The amendment was presented to the IAC and the IAC agreed the project was exempt from conformity; therefore, no conformity determination was required for the amendment. Mr. Bing made the motion to adopt Resolution 2022-06 and Mayor Pitts seconded the motion. The Resolution was adopted unanimously.

Item #7 on the agenda was the review and discussion of FY2023-FY2026 TIP development and projects. Mr. Williams said on the Tennessee side the funding is committed to the existing projects. The TIP document is being developed as an electronic TIP through new TDOT software and all of the TN MPO's will use the same software. Mr. Williams reviewed the projects. TIP #1 under the TDOT projects is the widening of I-24. Mayor Durrett asked that a letter of support be sent to TDOT for a study for an Exit 6. Mr. Williams thought it was in the plans to review an Exit 6

interchange, but would do a support letter. Mayor Pitts stated the Spring Creek Blvd project has completed ROW for phase 1 and phase 2. Mr. Nuss stated that the KY911 widening of the second phase is projected to be let this fall/winter. He said the lighting project on KY115 will not happen. The interchange will be redeveloped as a double diamond design due to the building of the Buc-ee's Truck Stop. The Lafayette Road project is close to moving to construction and the County engineer is in the process of hiring a CEI for the project. Mr. Williams said the draft FY2023-FY2026 TIP will be adopted at the October MPO meeting.

Item #8 on the agenda was the review and discussion of the Safe Streets and Roads for All (SS4A) grant application for the MPO with the assistance of the City of Clarksville. Mr. Williams said the SS4A is a competitive grant. The MPO will be working with Lauren Winters with the City of Clarksville on submitting the grant application. The application for a Safety Action Plan is to be submitted by September 15, 2022. If the grant award is not enough to complete the Action Plan, Mr. Williams said the MPO will apply their PL planning funds to the Action Plan.

Item #9 was the federal update by Sean Santalla, FHWA-TN. Mr. Santalla was not in attendance. Mayor Durrett went on to Item #10.

Item #10 on the agenda was an update by Marc Corrigan, TDEC, on air quality. He gave an update on the VW Settlement and Mitigation Trust. TDEC will announce soon the awards for the EV charging stations. TDEC will hold off on announcing additional VW funding until it's determine what will be provided through the IIJA. Mr. Corrigan reviewed the ozone monitor for Clarksville and said there were no exceedances and the monitor reading of 0.059ppm is well below the standard. He stated the PM2 monitor looked good also with a daily standard of 35mg and the monitor for the Clarksville area reading 17-18mg. The annual standard is 12mg and the Clarksville area reading is in the 6-7mg range. A draft rule for the PM2 is expected in the fall of this year and EPA could lower the standard. For now the Clarksville area is in good standing with the ozone and PM2 monitor readings. The handouts Mr. Corrigan was speaking from were not available at the meeting. Mayor Durrett asked that the air quality handouts be emailed to the TCC and Executive Board. Mr. Williams agreed to send them out.

Item #11 on the agenda was new business from members of the public and/or MPO members. Mr. Mr. Taylor Lee, TDOT Local Programs, asked to speak. He said he was Kathryn McClung's supervisor and she was unable to attend. He discussed projects within the Local Programs department. He said TDOT was working on the contract for the SR-12/Excell Road intersection project and it should be completed and sent out soon. He said the Dunbar Cave/Rossvie Road project was under an environmental review. Mr. Lee said to contact him if there were any questions. Mayor Pitts asked Mr. Lee to check on the reevaluation status of the project. Mr. Williams said the next meeting will be in October, and will be in person with a virtual option for those unable to attend. Mr. Williams thanked Mayor Durrett for his dedication to the Montgomery County/Clarksville and Ft. Campbell area. He said that many of the transportation projects would not have happened if it was not for Mayor Durrett.
